BRING TO LIGHT YOUR TRUE BEAUTY

PANESTETIC
FUTURE FOR BEAUTY™

More and more people are turning towards aesthetic medicine nowadays to improve their physical appearance, with mostly invasive and expensive treatments. How can a beauty therapist compete on these treatments, by ensuring equally satisfactory results to the clients?

Starting from this question, after years of researches and new manufacturing developments, considering also the demands of the international markets, the Panestetic Laboratories developed Zoner, a multifunctional device which provides extraordinary results.

Three technologies in one which work synergically to obtain an immediate anti-aging effect on face, neck and décolleté and a toning effect on body.

Sold in more than 30 Countries worldwide, Zoner is the ideal solution to satisfy all customers, also the fussiest, thanks to immediate and lasting results. Zoner minimizes wrinkles, redefines the shape of the face, illuminates and gives tone to the skin and provides an extraordinary skin tightening effect on body areas with skin laxity or sagginess.

Zoner, a fundamental device for every beauty therapist.
